Subject: Bayou Corne
Date: 01/15/2013 11:49 AM

Greg,

Spoke with Sarah Hitchcock regarding the Bayou Corne operations. She was out there last Thursday and said the monitoring activities are scaling back. LDEQ is only going to have their IC out there M,W,F, and an Env. Sci out there on T, T. Prior to this week both IC and an Env Sci were out there every weekday. LDNR is scaling back to two days a week as well. She said the containment is moving forward and LDEQ is taking the lead. Does not know who is doing the design or design review. Said TX Brine is still pushing back on the two deep (6,000') geotech wells that they were ordered to start drilling today.

That's the latest that's fit to print. Will withhold her comments regarding the overall organization, but you can imagine.
